**HERB FUNCTIONS:**

**Lemon Balm** – Demonstrates antiviral and anti-herpes protection due to polyphenol content. Contains at least four antiviral compounds that target the herpes virus.<sup>1</sup>

**Sage** – Demonstrates anti-microbial properties.<sup>3</sup> Contains tannins, which may help treat inflammations of the mouth.<sup>1</sup>

**Garlic** – Exerts broad-spectrum antimicrobial activity against many bacteria, viruses and fungi. Contains allicin, which has been shown to kill the herpes simplex types 1 and 2.<sup>2</sup>

**Golden Seal** – Both antiseptic and immune stimulating.<sup>1</sup> Contains berberine, which activates special white blood cells known as macrophages.<sup>2</sup>

**Myrrh** – Effective anti-microbial agent. Supports the natural process of defense against conditions such as mouth ulcers.<sup>3</sup>
