Herb Functions

Lemon Balm - Demonstrates antiviral and anti-herpes protection due to polyphenol content. Contains at least four antiviral compounds that target the herpes virus. ¹

Sage - Demonstrates anti-microbial properties. ³ Contains tannins, which may help treat inflammations of the mouth. ¹

Garlic - Exerts broad-spectrum antimicrobial activity against many bacteria, viruses and fungi. Contains allicin, which has been shown to kill the herpes simplex types 1 and 2. ²

Golden Seal - Both antiseptic and immune stimulating. ¹ Contains berberine, which activates special white blood cells known as macrophages. ²

Myrrh - Effective anti-microbial agent. Supports the natural process of defense against conditions such as mouth ulcers. ³
